Leisure Batteries

NUMAX

New Technology . . . New Brand

***Advanced semi-traction technology envelope
separation for deep cycling***

***A quality range of high powered batteries engineered
with the latest technology for today's leisure needs***

Carrying a full 2 year guarantee

Energy on the Move

NUMAX

Leisure Batteries

CURRENT CALCULATIONS FOR CONTINUOUS POWER

Load (Watts) ÷ Voltage (Volts) = Current (Amps)
Current x Time (Hrs) = Capacity needed (Ah)
Then add 25% on to Ah Capacity for reserve.

For example:

Lights (30Watts) + Fridge (30 Watts) + Water Pump (10 Watts) + TV (B&W 50 Watts) = 120 Watts.
120 Watts ÷ 12 Volts = 10 Amps

For 6 hours = 60 Amps
Then add 25% = 75 Ah

BATTERY CARE FOR LONGER LIFE

- Always keep your battery fully charged, even when not in use. Leave in frost free position.
- Keep terminals and lid clean, dry and free from dust. Coat terminals with petroleum jelly.
- Check electrolyte levels. If required, top up only with deionised water.
- When in use make sure the battery is secure and the compartment ventilated.

Remember: This battery contains sulphuric acid which is corrosive. Keep away from clothing and out of reach of children.

CHARGING FOR YOUR SAFETY

- When charging always ensure there is proper ventilation.
- Check polarity is correct before connecting.
- Disconnect earth lead first and reconnect earth lead last.
- Switch off charger at mains before disconnecting battery.
- Keep sparks, naked flames, lit cigarettes and metal watch straps away from the battery at all times.
- Do not charge batteries contaminated with salt water, as this can give off poisonous fumes.

Remember: A battery left in a discharged state deteriorates quicker and may not regain full capacity.

GUARANTEE FOR PEACE OF MIND

- Numax Leisure batteries are guaranteed against faulty workmanship or materials for two years from date of purchase.
- Receipt for proof of purchase may be required.
- The guarantee does not include faults due to Negligence or abuse or incorrect or non recommended fitment.
- This guarantee does not affect your statutory rights.
