buggy & caddy

batteries to power your lifestyle...

caddy and trolley

Introducing...

Here at Squadron we are proud to offer you the best golfing package to power and charge your equipment. Whether for golf cars or power caddies we have a total solution for you. We even supply a range of connectors and golf bags for your convenience.

Power Caddies and Scooters

For those using caddy golf trolley's we have a full range of replacement AGM (sealed lead acid) and Gel batteries to meet your needs. These are manufactured by the Fullriver battery company and have superb endurance features for all brands of powered golf.

- Powerful, clean, maintenance free, sealed, valve regulated, no leakage rechargeable batteries. Usable in any position.
- Minimal self discharge, and durability for deep discharge use.
- Suitable for Powacaddy, Caddymatic, Hillbilly, Lawia, Advantage etc

- 12 month warranty

golf car buggy's & EV's

Back in 1952 Trojan invented the golf car battery, they are still No.1 50 years later. Used as O/E by Club Car, E-Z-GO, Textron, Yamaha etc.

More than 98% of America's top golf courses use them in their fleets.

We are MASTER DISTRIBUTORS for Trojan in the UK and EIRE. Trojan are the world's leader in golf car (buggy) battery supply in both 6 and 8 volt formats.

Drive on with Trojan's deep cycle batteries!

Proprietary Technology means more power, more reliability and more rounds of golf. So trust Trojan to keep your cars running all day, every day.

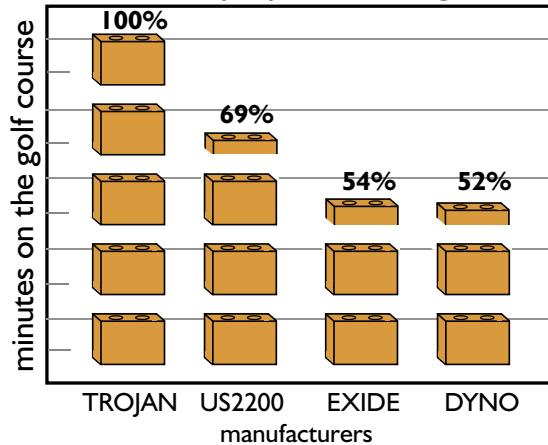

A dependable power source that consistently delivers durability, reliability and long life. Every Trojan battery is engineered for maximum performance. The proprietary Maxguard®, Advanced Design Separator and exclusive Alpha Plus® Paste Formulation provide superior capacity and longer running time.

So if you're looking for the maroon battery with heart of gold call for more details now.

Remember, 'if it's not maroon it's not Trojan'.
